

ZCK-H Single-Round Filter Housing Series

ZCK-H Single-Round Filter Housing Series is designed to be used with ZCK-H Filter Cartridge.

Features and Benefits

ZCK-H Single-Round Filter Housing is used in slurry coating filtration when the production line is placed below 50 meters or requires high flow rates. It is easy to install and clean.

Materials of Construction

Shell/Body: 304 / 316L

Drain: 304 / 316L

Clamp/Leg: 304

Operating Conditions

Max. Operating Pressure: 0.6 MPa (6Bar)

Max. Operating Temperature: 135℃

Design Temperature: 140℃

Order Information

Name	Material	Connection	Sealing Material
H-SCF-130	A SUS304 B SUS316L	T25 Tri-clamp DN25 T38 Tri-clamp DN38 D Customized	E=EPDM
