

ZCK-M Filter Housing Series

Matched with ZCK-M Cartridge to use, special for high-speed line high-flow slurry coating filtration, less slurry residue, easy to replace, shorten the time to change cartridge, and improve efficiency.

Characteristics

Super high flow design is suitable for high speed slurry coating filtration demand.

Material

Filter Husing: 304 / 316L
Drain: 304 / 316L
Clamp/Legs: 304

Characteristics

Design Pressure: 0.6 MPa (6Bar)
Operation Temperature: 135℃
Design Temperature: 140℃

Order Information
